

THE BENEFITS OF A BOWMAN DISPENSER AUDIT

- 1 PROJECT DEADLINES**
Meet deadlines during new construction and renovation projects by early and effective equipment planning, purchasing, delivery and installation.
- 2 COST SAVINGS**
Protect patients, visitors, and staff from microorganisms through the standardization of Personal Protective Equipment (PPE) infection prevention dispensers. This drives best practice adherence and PPE refill compliance.
- 3 PRODUCTIVITY TIME & COST SAVINGS**
Improve organization and dispensing processes so that staff achieve greater efficiencies by not having to search for supplies in cabinets, drawers, and supply closets.
- 4 STAFF & PATIENT EXPOSURE COSTS**
Contain costs by preventing Healthcare Associated Infections (HAI's) and outbreak investigations by providing convenient, standardized access to PPE. Use the BOWMAN Quick Reference Isolation badges and Isolation Precaution Signs for quick identification of organisms and implementation of the correct isolation precaution procedures.
- 5 REGULATORY GUIDELINE COMPLIANCE**
 - PPE available for staff protection
 - PPE not stored in shipping boxes
 - Products not stored on the floor
 - 4" protrusion guidelines compliance in hallways
 - Clear egresses
 - Separation of clean and dirty supplies

AUDIT TOOL *Acute Care*
