Stainless Steel BK002-0300

BOWMAN's clear plastic dispensers are made from superior PETG Plastic. PETG is cost effective due to its flexibility, clarity, and high impact resistance. Most competitors use Acrylic Plastic. Acrylics replacement costs are high due to its brittleness, susceptibility to stress cracking, shattering and discoloration with cleaning agents and UV lights. Avoid the additional costs and frustration of replacing Acrylic products; buy quality, buy BOWMAN *the first time!*
